Section: Board of Education

Title: School District Mission

Number: AD – Basic

Adopted: April 28, 2008

Revised: June 25, 2026

It is the board's responsibility to formulate and express the district's mission and create and monitor a long term strategic plan for the district that is aligned with the district's mission.

The district's mission is: Through the expertise of an engaged staff, the Park Hill School District provides a relevant education in a safe, caring environment to prepare each student for success in life.

The board developed the mission statement with input from district employees, students, parents/guardians, and the community and welcomes any suggestions for improvement. The district will periodically review and revise the mission statement to reflect the district's evolving priorities.

The district will prominently display its mission statement on the district's website, in district schools and handbooks, and in other key communications.

Strategic Plan

The district has created, and the board has adopted, a Continuous School Improvement Plan (CSIP), guided by the district's mission statement, that focuses on district performance and improvement. The district developed the CSIP in cooperation with district employees, parents/guardians, and the community. The CSIP sets data-driven goals and evidence-based action steps and strategies.

The board will regularly monitor CSIP implementation and outcomes and will rely on the CSIP when making decisions about district programming, creating district plans, and allocating resources. The district will regularly review, adjust, and improve the CSIP to meet evolving district needs.

The district will maintain a current version of the CSIP on the district's website and in the superintendent's office.
